# Subject Index to Volume 17

AIDS 1987, 273
AIDS, AIDS related conditions and healthy antibody positive individuals, isolation of HIV from Australian patients with, 461
AIDS, Australian hemophiliac recipients of voluntary donor blood products longitudinally evaluated for. A clinical and laboratory study, 1983-1986, 371
APD, 3-amino-1-hydroxypropylidene-1, 1-bisphosphonate, a comparison of single and multiple intravenous infusions of, in the treatment of hypercalcemia of malignancy, 387
APSAC, initial experience with a new fibrinolytic agent in patients with major pulmonary embolism, 77
Aboriginal family, Australian, familial IgA nephropathy: a study of renal disease in, 27
Aboriginal population of Western Australia, occurrence and distribution of Hepatitis B infection in the, 518
Aborigines, Darwin, a high frequency of inherited deficiency of complement component C4, 420
*Acacia coriacea* flour, addition of to wheat bread, lower postprandial plasma glucose and insulin after, 24
Acquired immunodeficiency syndrome, pulmonary manifestations of, 551
Acromegaly, resolution of, after removal of a bronchial carcinoid shown to secrete growth hormone releasing factor, 63
Adrenocortical carcinoma presenting as primary aldosteronism in a young man, 60
Alcoholic proximal wasting, chronic: physiological, morphological and biochemical studies in skeletal muscle, 413
Aldosteronism, primary, adrenocortical carcinoma presenting as, in a young man, 60
Allergy, chlorambucil — a series of three cases, 600
Allograft, renal, treatment of acute rejection with a monoclonal antibody to a T cell antigen (HuLy-m2), 210
Aminoglycoside therapy in seriously ill patients, usefulness of estimating individual pharmacokinetic data for, 526
Aminohydroxypropylidene diphosphonate treatment of hypercalcemic crisis due to primary hyperparathyroidism, 58
Aminophylline in acute asthma (Letter), 540
Aminophylline in acute asthma, 263
Anemia, Coombs positive hemolytic, high dose intravenous gammaglobulin in, 290
Aneurysm, syphilitic, of the right subclavian artery presenting with hemoptysis, 533
Angioma, asymptomatic cerebellar venous, 441
Angioplasty in acute myocardial infarction, 189
Angiosarcoma of the heart, 74
Anti-oncogenes and oncogenes in cancer, roles of. The threshold of malignancy, 98
Antibody patterns in the serological diagnosis of acute lymphadenopathic toxoplasmosis, 430
Antiplatelet effect of enteric coated aspirin in man, a dose-ranging study of, 195
Apoplexy, chiasmal, due to intrachiasmatic vascular malformation rupture, 444
Arrhythmias following myocardial infarction, a survey of management of, 359
Arthritis, a study of, in Papua New Guinea, 51
Ascites, refractory, precipitated by obstructive uropathy, 452
Aspirin, enteric coated, a dose-ranging study of the antiplatelet effect of in man, 195
Aspirin, the enigma of, 192
Asthma, acute, aminophylline in (Letter), 540
Asthma, acute, aminophylline in, 263
Asthma, the efficacy of nedocromil sodium (Tilade®) in, 557
Ataxia telangiectasia, chronic eosinophilic pneumonia in a patient with, 592
Autologous bone marrow transplantation: present status and future prospects, 275
Autologous bone marrow, monoclonal antibody-purged, transplantation for treatment of poor risk common acute lymphoblastic leukemia, 283

Baker Medical Research Institute, Melbourne, The. A Diamond Anniversary, 185
Bee venom desensitization in children, is there a place for?, 85
Biotechnology revolution and Australian medical science, 98
Blood sugars, high, are (they) ignored in the elderly? 485
Bone marrow transplantation, autologous: present status and future prospects, 275
Boxing and the brain (Letter), 83
*Branhamella catarrhalis*, meningitis due to, 241
Bromocriptine in mild to moderate hypertension, 457
Bronchial carcinoid shown to secrete growth hormone releasing factor, removal of, resolution of acromegaly after, 63
Bronchoalveolar lavage helper/suppressor T-cell ratios in sarcoidosis, comparison of, *versus* other interstitial lung diseases, 9
Bronchoalveolar lavage, the role of, in the diagnosis of suspected opportunistic pneumonia, 407

C4, complement component, a high frequency of inherited deficiency of, in Darwin Aborigines, 420
CT abdominal, and lymphography in the initial staging of non-Hodgkin's lymphoma, 253
Calculi in the gallbladder and bile ducts, methyl tertiary butyl ether cholelitholysis of, 435
Cardiac disorder and the 'Missed' hemorrhage (Letter), 612
Cardiopulmonary resuscitation: new concepts and strategies, 543
Cerebellar venous angioma, asymptomatic, 441
Chemotherapy for small cell lung cancer: induction and reinduction with VOCA, 279
Chemotherapy with mitomycin C and doxorubicin, veno-occlusive disease of the liver following, 449
Chemotherapy, cytotoxic, necrosis of myeloma-infiltrated ileum following, 80
Chinese, coronary prognostic index for the, 562
Chlorambucil allergy — a series of three cases, 600
Cholelitholysis, methyl tertiary butyl ether, of calculi in the gallbladder and bile ducts, 435
Cisplatinum/vinblastine/bleomycin therapy alone for mediastinal endodermal sinus tumour, prolonged survival with, 336
Colchicine, does (it) work? The results of the first controlled study in acute gout, 301
Complement component C4 in Darwin Aborigines, a high frequency of inherited deficiency of, 420
Continuing education and peer review in internal medicine (CEPRIME) (Letter), 343
Copper poisoning, was it? Palm Island reconsidered, 345
Coronary heart disease hospital discharge data, validation of, 43
Coronary heart disease, a matched pairs comparison of cycle ergometry and treadmill exercise testing in the evaluation of, 472
Coronary prognostic index for the Chinese, 562
Corticosteroids and osteoporosis (Letter), 611
Corticosteroids and osteoporosis, 267
Cough and dyspnea, a 54-year-old woman with, 615
Coxsackie polyarthritis or adult onset Still's disease? (Letter) 259
Cushing's syndrome, development from a previously silent pituitary tumour, 249
Cycle ergometry and treadmill exercise testing in the evaluation of coronary heart disease, a matched pairs comparison of, 472

Cysticercosis, cerebral; a case report with particular reference to recent advances in diagnosis and treatment, 55
Cytopenias, immune, danazol therapy in patients with (Letter), 613
Cytosine arabinoside in the treatment of T-cell acute lymphoblastic leukemia, 379

Danazol therapy in patients with immune cytopenias (Letter), 613
Death certification of ischemic heart disease in Australia and New Zealand, variation in, 309
Diabetes in chronic pancreatitis, evidence against an immunogenetic basis for, 392
Diabetes mellitus in patients with suspected acute myocardial infarction, serum fructosamine as a screening method for, 467
Dialysis and transplantation in patients with renal failure due to systemic lupus erythematosus. The Australian and New Zealand experience, 321
Diamond Anniversary, A. The Baker Medical Research Institute, Melbourne, 185
Dose-ranging study of the antiplatelet effect of enteric coated aspirin in man, 195
Doxorubicin and mitomycin C, veno-occlusive disease of the liver following chemotherapy with, 449
Duodenal ulcer, enprostil and ranitidine: comparative efficacy and safety in patients with, 316
Dyspnea and cough, a 54-year-old woman with, 615

Elderly, are high blood sugars in (them) ignored? 485
Electrophysiology study, clinical, in patients with syncope of undetermined etiology, 512
Endodermal sinus tumour, mediastinal, prolonged survival with conventional cisplatinum/vinblastine/bleomycin therapy alone for, 336
Enigma of aspirin, the, 192
Enoxacin in the treatment of complicated urinary tract infections, 81
Enprostil and ranitidine: comparative efficacy and safety in patients with duodenal ulcer, 316
Epilepsy, the management of, and plasma concentrations of unbound valproate, 574
Exercise testing, cycle ergometry and treadmill, a matched pairs comparison of, in the evaluation of coronary heart disease, 472
Extended neuralgic amyotrophy syndrome, 34

Familial IgA nephropathy: a study of renal disease in an Australian Aboriginal family, 27
Fibrinolytic agent (APSAC), initial experience with a new, in patients with major pulmonary embolism, 77
Free radicals, a possible role for, in cardiac reperfusion, 459
Fructosamine, serum, as a screening method for diabetes mellitus in patients with suspected acute myocardial infarction, 467

Gallstones, non-surgical treatment of, 369
Gammaglobulin, high dose intravenous, in Coombs positive hemolytic anemia, 290
Giant cell tumour of a tendon sheath, oncogenic hypophosphatemic osteomalacia associated with a, 330
Giardiasis and vitamin B12 deficiency (Letter), 261
Glomerulonephritis, minimal change, associated with *Schistosoma hematobium* infection. Resolution with praziquantel treatment, 596
Gout, acute, does colchicine work? the results of the first controlled study, 301
Growth hormone releasing factor, resolution of acromegaly after removal of a bronchial carcinoid shown to secrete, 63

HIV, isolation of, from Australian patients with AIDS, AIDS related conditions and healthy antibody positive individuals, 461
HPRT (Hypoxanthine-guanine phosphoribosyltransferase) mutations, molecular studies of, in six Australian families, 424
Heart disease, ischemic, variation in death certification in Australia and New Zealand, 309
Heart, angiosarcoma of the, 74
Hematological malignancy, a comparative study of T-cell depleted and non-depleted marrow transplantation for, 16
Hemophilia A, isolated, demonstration of recent mutation in a family with, 609
Hemophilia, management of human immunodeficiency virus-induced thrombocytopenia in, 581
Hemophiliac recipients, Australian, of voluntary donor blood products longitudinally evaluated for AIDS. A clinical and laboratory study, 1983-1986, 371
Hemoptysis, syphilitic aneurysm of the right subclavian artery presenting with, 533
Henoch-Schönlein Nephritis, Adult, 396
Hepatitis B in Australia: determinants of intrafamily spread, 220
Hepatitis B infection, occurrence and distribution of, in the Aboriginal population of Western Australia, 518
Hepatitis, nifedipine, 447
High dose intravenous gammaglobulin in Coombs positive hemolytic anemia, 290
Hodgkin's disease presenting with central nervous system involvement (Letter), 343
Human immunodeficiency virus-induced thrombocytopenia in hemophilia, management of, 581
Hypercalcemia of malignancy, a comparison of single and multiple intravenous infusions of 3-amino-1-hydroxypropylidene-1, 1-bisphosphonate (APD) in the treatment of, 387
Hypercalcemic crisis due to primary hyperparathyroidism, aminohydroxypropylidene diphosphonate treatment of, 58
Hyperparathyroidism, primary, aminohydroxypropylidene diphosphonate treatment of hypercalcemic crisis due to, 58
Hypertension, malignant, a young woman with, 351
Hypertension, mild to moderate, bromocriptine in, 457
Hypertensive disorders of pregnancy, the management of, 187
Hypoadrenalism, non-Hodgkin's lymphoma as a cause of, 605
Hypogammaglobulinemic children receiving low pH intravenous immunoglobulin, decreased incidence of adverse infusion reactions in, 495
Hypokalemic periodic paralysis of thyrotoxic origin, 455
Hypothalamic/Pituitary sarcoidosis, 243
Hypoxanthine-guanine phosphoribosyltransferase mutations, molecular studies of, in six Australian families, 424

IgG, serum, subclasses in patients with an increased susceptibility to respiratory tract infections, 402
Immune complex constituents in *Candida albicans* osteomyelitis, the immunochemical characterisation of, by isoelectric focusing, immunoblot, and immunoprint, 201
Immunochemical characterisation of circulating immune complex constituents in *Candida albicans* osteomyelitis by isoelectric focusing, immunoblot, and immunoprint, 201
Immunogenetic basis for diabetes in chronic pancreatitis, evidence against an, 392
Immunoglobulin and T-cell receptor gene rearrangements, diagnostic use of, in lymphoproliferative disease, 1
Immunoglobulin, low pH intravenous, decreased incidence of adverse infusion reactions in hypogammaglobulinemic children receiving, 495
Index, coronary prognostic, for the Chinese, 562
Inferior myocardial infarction, diagnosis of, in the presence of left anterior hemiblock, 47
Infusion reactions, adverse, decreased incidence of, in hypogammaglobulinemic children receiving low pH intravenous immunoglobulin, 495

Intestinal pseudo-obstruction in pheochromocytoma, 246
Intravenous catheter-associated *Staphylococcus epidermidis* bacteremia in hematology/oncology patients, 339
Is there a place for bee venom desensitization in children?, 85
Isoelectric focusing, immunoblot, and immunoprint, the immunochemical characterisation of circulating immune complex constituents in *Candida albicans* osteomyelitis by, 201

Kidney disease, adult polycystic, tuberous sclerosis mimicking, 71
Kinetic study of sulindac in the elderly, 39

Legal techniques and medical value judgments (Arthur E. Mills Memorial Oration), 93
Leprosy patients, Australian and Nepali, the serological response to the phenolic glycolipid of *Mycobacterium leprae* in, 568
Leukemia patient receiving parenteral nutrition, *Malassezia furfur* fungemia as a treatable cause of obscure fever in, 603
Leukemia, T-cell acute lymphoblastic, cytosine arabinoside in the treatment of, 379
Leukemia, acute lymphoblastic, transplantation of monoclonal antibody-purged autologous bone marrow for treatment of poor risk common, 283
Liver, veno-occlusive disease of, following chemotherapy with mitomycin C and doxorubicin, 449
Localising value of primary position upbeating nystagmus, 333
Lupoid thrombocytopenia, 295
Lupus and non-lupus cutaneous manifestations in systemic lupus erythematosis: the importance of histopathological diagnosis, 501
Lymphography and abdominal CT in the initial staging of non-Hodgkin's lymphoma, 253
Lymphoma, non-Hodgkin's, abdominal CT and lymphography in the initial staging of, 253
Lymphoma, non-Hodgkin's, as a cause of hypoadrenalism, 605

MTBE (Methyl tertiary butyl ether cholelitholysis of calculi in the gallbladder and bile ducts, 435
*Malassezia furfur* fungemia as a treatable cause of obscure fever in a leukemia patient receiving parenteral nutrition, 603
Management of hypertensive disorders of pregnancy, The, 187
Marrow transplantation, comparative study of T-cell depleted and non-depleted, for hematological malignancy, 16
Meningitis due to *Branhamella catarrhalis*, 241
Methyl tertiary butyl ether cholelitholysis of calculi in the gallbladder and bile ducts, 435
Mitomycin C and doxorubicin, veno-occlusive disease of the liver following chemotherapy with, 449
Mitral valve repair, results of a technique, 491
Molecular studies of hypoxanthine-guanine phosphoribosyl-transferase mutations in six Australian families, 424
Monoclonal antibody to a T cell antigen (HuLy-m2), treatment of acute renal allograft rejection with, 210
Muscle, skeletal, chronic alcoholic proximal wasting: Physiological, morphological and biochemical studies in, 413
*Mycobacterium leprae*, the serological response to the phenolic glycolipid of, in Australian and Nepali leprosy patients, 568
Myeloma-infiltrated ileum, necrosis of, following cytotoxic chemotherapy, 80
Myocardial imaging agent, Tc-99m tertiary butyl isonitrile: a preliminary clinical study of, in patients with chest pain, 480
Myocardial infarction, a survey of management of arrhythmias following, 359
Myocardial infarction, acute, angioplasty in, 189
Myocardial infarction, enhanced prediction of major cardiac events after, using exercise radionuclide ventriculography, 228
Myocardial infarction, inferior, diagnosis of in the presence of left anterior hemiblock, 47
Myocardial infarction, suspected acute, serum fructosamine as a screening method for diabetes mellitus in patients with, 467
Myositis, orbital: a study of six cases, 585

Necrosis of myeloma-infiltrated ileum following cytotoxic chemotherapy, 80
Nedocromil sodium (Tilade®) in asthma, the efficacy of, 557
Nephritis, adult Henoch-Schönlein, 396
Nephropathy, familial IgA: a study of renal disease in an Australian Aboriginal family, 27
Neuritis, paraneoplastic optic, and external ophthalmoplegia (Letter), 539
Nifedipine hepatitis, 447
Non-Hodgkin's lymphoma, abdominal CT and lymphography in the initial staging of, 253
Nutritional status on admission to a general surgical ward in a Sydney Hospital, 234
Nystagmus, primary position upbeating, localising value of, 333

Oncogenes and anti-oncogenes in cancer, roles of. The threshold of malignancy, 105
Oncogenic hypophosphatemic osteomalacia associated with a giant cell tumour of a tendon sheath, 330
Ophthalmoplegia, external, and paraneoplastic optic neuritus (Letter), 539
Orbital myositis: a study of six cases, 585
Osteomalacia, oncogenic hypophosphatemic, associated with a giant cell tumour of a tendon sheath, 330
Osteomyelitis, *Candida albicans*, the immunochemical characterisation of circulating immune complex constituents in, by isoelectric focusing, immunoblot, and immunoprint, 201
Osteoporosis and corticosteroids (Letter), 611
Osteoporosis, corticosteroids and, 267

PVB, prolonged survival with conventional cisplatinum/vinblastine/bleomycin (PVB) therapy alone for mediastinal endodermal sinus tumour, 336
Palm Island reconsidered. Was it copper poisoning? 345
Pancreatitis, chronic, evidence against an immunogenetic basis for diabetes in, 392
Papillary necrosis associated with rifampicin therapy, 68
Papua New Guinea, a study of arthritis in, 51
Paralysis, hypokalemic periodic, of thyrotoxic origin, 455
Parenteral nutrition, *Malassezia furfur* fungemia as a treatable cause of obscure fever in a leukemia patient receiving, 603
Peer review and continuing education in internal medicine (CEPRIME) (Letter), 343
Pharmacokinetic data, individual, for aminoglycoside therapy in seriously ill patients, usefulness of estimating, 526
Phaeochromocytoma, intestinal pseudo-obstruction in, 246
Pituitary tumour, previously silent, development of Cushing's syndrome from, 249
Pituitary/hypothalmic sarcoidosis, 243
Plasma concentrations of unbound valproate and the management of epilepsy, 574
Plasmapheresis, treatment by, (in) acute scleroderma in stable mixed connective tissue disease, 327
Pneumonia, chronic eosinophilic, in a patient with ataxia telangiectasia, 592
Pneumonia, the role of bronchoalveolar lavage in the diagnosis of suspected opportunistic, 407
Postprandial plasma glucose and insulin, lower, after addition of *Acacia coriacea* flour to wheat bread, 24

Praziquantel treatment, resolution of minimal change glomerulonephritis associated with *Schistosoma hematobium* infection with, 596
Pregnancy, the management of hypertensive disorders of, 187
Primary aldosteronism, adrenocortical carcinoma presenting as, in a young man, 60
Pulmonary embolism, major, initial experience with a new fibrinolytic agent (APSAC), in patients with, 77
Pulmonary manifestations of the acquired immunodeficiency syndrome, 551
Pyelography, bilateral retrograde, acute tubular necrosis complicating, 536

Radionuclide ventriculography, exercise, enhanced prediction of major cardiac events after myocardial infarction using, 228
Ranitidine and enprostil: comparative efficacy and safety in patients with duodenal ulcer, 316
Renal allograft rejection, acute, treatment of, with a monoclonal antibody to a T cell antigen (HuLy-m2), 210
Renal failure due to systemic lupus erythematosus, dialysis and transplantation in patients with. The Australian and New Zealand experience, 321
Repeated warnings re repeated measures (Letter), 255
Reperfusion, cardiac, a possible role for free radicals in, 459
Respiratory tract infections, serum IgG subclasses in patients with an increased susceptibility to, 402
Resuscitation, cardiopulmonary: new concepts and strategies, 543
Rheumatoid arthritis, juvenile, in Auckland: a long term follow-up study with particular reference to uveitis, 305
Rifampicin therapy, papillary necrosis associated with, 68

Sarcoidosis, comparison of bronchoalveolar lavage helper/suppressor T-cell ratios in, *versus* other interstitial lung diseases, 9
Sarcoidosis, hypothalamic/pituitary, 243
*Schistosoma hematobium* infection, minimal change glomerulonephritis associated with. Resolution with praziquantel treatment, 596
Scleroderma, acute, in stable mixed connective tissue disease: treatment by plasmapheresis, 327
Serological diagnosis of acute lymphadenopathic toxoplasmosis, antibody patterns in, 430
Serum IgG subclasses in patients with an increased susceptibility to respiratory tract infections, 402
Small cell lung cancer, chemotherapy for: induction and reinduction with VOCA, 279
Stable mixed connective tissue disease, acute scleroderma in: treatment by plasmapheresis, 327
*Staphylococcus epidermidis* bacteremia, intravenous catheter-associated, in hematology/oncology patients, 339
Still's disease, adult onset, or Coxsackie polyarthritis? (Letter), 259
Sulindac, a kinetic study of, in the elderly, 39
Syncope of undetermined etiology, clinical electrophysiology study in patients with, 512
Syphilitic aneurysm of the right subclavian artery presenting with hemoptysis, 533
Systemic lupus erythematosus, dialysis and transplantation in patients with renal failure due to. The Australian and New Zealand experience, 321
Systemic lupus erythematosus, lupus and non-lupus cutaneous manifestations in: the importance of histopathological diagnosis, 501

T-cell depleted and non-depleted marrow transplantation for hematological malignancy, a comparative study, 16
T-cell receptor gene rearrangements, diagnostic use of, in lymphoproliferative disease, 1
Takayasu's disease (Letter), 259
Tc-99m tertiary butyl isonitrile: a preliminary clinical study of a new myocardial imaging agent in patients with chest pain, 480
Thrombocytopenia, human immunodeficiency virus-induced, management of in hemophilia, 581
Thrombocytopenia, lupoid, 295
Thyrotoxic origin, hypokalemic periodic paralysis of, 455
Tilade® (nedocromil sodium), the efficacy of, in asthma, 557
Toxoplasmosis, acute lymphadenopathic, antibody patterns in the serological diagnosis of, 430
Transplantation and dialysis in patients with renal failure due to systemic lupus erythematosus. The Australian and New Zealand experience, 321
Transplantation of monoclonal antibody-purged autologous bone marrow for treatment of poor risk common acute lymphoblastic leukemia, 283
Treadmill Exercise and cycle ergometry testing in the evaluation of coronary heart disease, a matched pairs comparison of, 472
Tuberculosis, extrapulmonary — a continuing problem in Australia, 507
Tuberous sclerosis mimicking adult polycystic kidney disease, 71
Tubular necrosis, acute, complicating bilateral retrograde pyelography, 536

Urinary tract infections, enoxacin in the treatment of, 81
Uropathy, obstructive, refractory ascites precipitated by, 452
Uveitis, a long term follow-up study with particular reference to, juvenile rheumatoid arthritis in Auckland, 305

VOCA, chemotherapy for small cell lung cancer: induction and reinduction with, 279
Validation of coronary heart disease discharge data, 43
Valproate, unbound, plasma concentrations of, and the management of epilepsy, 574
Valve repair, mitral, results of a technique, 491
Vascular malformation rupture, intrachiasmatic, chiasmal apoplexy due to, 444
Veno-occlusive disease of the liver following chemotherapy with mitomycin C and doxorubicin, 449
Ventriculography, exercise radionuclide, enhanced prediction of major cardiac events after myocardial infarction, 228
Vitamin B12 deficiency and giardiasis (Letter), 261

Wasting, chronic alcoholic proximal: Physiological, morphological and biochemical studies in skeletal muscle, 413
Women in the University of Melbourne Medical Faculty: 100 years on, 549

Yersinia enterocolitica in adults, clinical aspects of infection with, 216

Proceedings of Meetings of Special Societies are indexed by author only.
